

## SOLID WASTE FACILITIES PERMIT

SSWMB E-2-77 (REV. 10/77)

PAGE 1	OF 4
SOLID WASTE FACILITY PERMIT NO. 13-AA-006	
PROPOSED	
SSWMB APPROVAL	
ENFORCEMENT AGENCY APPROVAL	

ENFORCEMENT AGENCY  
Imperial County Health Department  
Environmental Quality Control

COUNTY  
Imperial

FACILITY NAME  
Holtville Aristrip Cut and Fill Site

OPERATOR  
County of Imperial - Department of Public Works

FACILITY LOCATION  
Whitlock Road 8 miles, northeast of Holtville

per CIWMB 123 = Sept. 21, 1979  
Amalia

## FINDINGS

- This facility is an existing since August 15, 1977 40 acre Class II sanitary landfill; site life is expected to be 38 years. The area landfill method of operation is utilized. The facility is located at Whitlock Road 8 miles Northeast of Holtville. The disposal site receives 22 tons per day. The site is open 24 hours a day 7 days a week. No salvage operations are conducted, however scavenging occurs. Types of waste received at the site include:
  - Residential refuse.
  - Tires.
  - Empty pesticide containers.
  - Limited geothermal wastes.

Geothermal drilling muds are accepted upon approval of the Regional Water Quality Control Board and are spread over existing cells. The empty pesticide containers, upon certification of the County Agricultural Commissioner, have been triple rinsed and punctured prior to being transported to the site where they are placed in a separate fenced trench.
- Design and operation of this facility are as specified by the Report of Disposal Site Information dated August 15, 1977; that which pertains to the period immediately prior to August 15, 1977 is hereby made a part of this finding. There are no proposed significant changes in design or operation.
- Land within 1,000 feet of the site is zoned "F" Recreation.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

4. This facility's design and operation are currently in substantial compliance with State Minimum Standards as determined by physical inspection made on February 24, 1978 except that they violate Sections - 17636, 17637, 17638, 17639, 17646, 17647, 17648, 17658, 17660, 17666, 17669, 17676, 17677, 17679, 17682, 17685, 17686, 17701, 17703, 17707, 17711, 17713, 17731, 17732, 17741. The conditions of this permit establish an appropriate schedule for compliance with those sections.
5. This permit is consistent with the Imperial County Solid Waste Management Plan and with the State Minimum Standards for Solid Waste Handling and Disposal.
6. The following documents condition operation of this facility:
  - a. Rubbish Dump Permit No. (pending).
  - b. California Regional Water Quality Control Board, Colorado River Basin Region: Waste Discharge Requirements No. 70-40.
  - c. Internal memo from Alvin Franks-Planning and Research to Will Ponders Colorado River Basin Region Regarding the disposal of drilling muds #415:ALF.
  - d. Lease agreement between the United States Department of the Interior. Bureau of Reclamation and the County of Imperial dated September 21, 1978.

#### CONDITIONS:

##### Requirements:

1. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

##### Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of Hazardous wastes.
2. Open burning.
3. Scavenging.
4. Disposal of liquid wastes.

##### Specifications:

No significant change in design or operation from that described in Items #1 and #2 of the Findings Section is allowed, except for those changes which are required under the "CONDITIONS" portion of this permit.

Provisions:

## 1. The following provisions must be met.

- a. Salvaging when permitted or done shall be in accordance with a plan submitted to and approved by the enforcement agency.
- b. The operator will immediately upon issuance of permit commence and thereafter maintain a log of special occurrences.
- c. All residential and commercial wastes containing putrescibles shall be covered completely at the end of each working day to control vectors, litter, and odors. The cover material shall be placed over the top and face of the slope and compacted to a minimum of six (6) inches. Construction, yard and other non-putrescible wastes shall be covered when the area of deposit exceeds an area of 100x100 square feet to be implemented upon issuance of permit.
- d. The operator must establish and make available records pertaining to land fill operations upon issuance of permit.
- e. The operator shall establish an effective monitoring program and maintenance procedures for equipment and site facilities by 12-1-78.\*
- f. Fire control capabilities must be provided as required by Imperial County Fire Department and the California Division of Forestry by 12-1-78.\*
- g. Incoming records of weights or volumes must be instituted by the site operator by 12-1-78.\*
- h. Map records of subsurface cuts must be maintained on the dimensions and locations of any cuts made in the natural terrain where refuse will be placed by 12-1-78.\*
- i. Internal roads must be identified with suitable signing showing directions to operating areas by 12-1-78.\*
- j. Unloading of solid wastes shall be confined to as small an area as practicable. Adequate control of wind blown materials shall be provided by 1-1-79.\*
- k. A compacted layer of at least 12 inches of cover shall be placed on all surfaces of the fill where no additional refuse will be deposited within 180 days by 1-1-79.\*
- l. The operator shall establish and identify an area for the depositing of burning waste received at the site by 2-1-79.\*
- m. The operator must provide proper supervision, adequate personnel for proper operation, and site security by 3-1-79.\*
- n. The slope of those portions of the fill which will be the final exterior shall have a neat, finished appearance. A minimum of 2 feet of compacted cover material of a quality suitable for the intended reuse of the site shall be placed over the entire surface of the final lift of the fill by 3-1-79.\*

**DRAFT**  
**PRELIMINARY—UNOFFICIAL**  
**AND**  
**SUBJECT TO CHANGE**  
**DATE** \_\_\_\_\_

- o. The operator must provide sanitary facilities for employees by 2-1-79.\*
  - p. Adequate lighting must be provided if site is open after sundown by 3-1-79.\*
  - q. A litter clean-up program of the premises must be initiated upon issuance of this permit, and completed by 10-1-79\* followed by an approved litter maintenance program.
2. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

#### Self-Monitoring Program

The following items shall be monitored by the operators of this facility or his agent and records shall be kept and made available to the enforcement agency upon request.

- 1. Quantity and types of wastes received at the site per day and per week.
- 2. Area of site utilized.
- 3. Quantity and types of wastes salvaged per month as applicable.
- 4. Number of vehicles utilizing the site per day and per week.

\* Anticipate permit issuance on November 30, 1978. Each day delay will automatically extend due dates mentioned under specifications and provisions accordingly.
